EQUESTRIAN MOOD | SOFT PASTELS | THE NEW DENIM | NEUTRAL CASUALWEAR | BLACK IS BACK

3-D Prints and embellishments captivate us and make us wonder.

Sophisticated simple elegance and refinement allow space for graphic workmanship of the play of lights and darks or shapes of enveloping mystery.

This is a season of print, no print, color, no color, but the print and the color in a new way are the protagonists.

Nature strongly inspires prints this season. The majority of a woman's wardrobe goes to neutrals and solids. But one part has to go in pattern, color and fantasy. Combine casual with luxe.

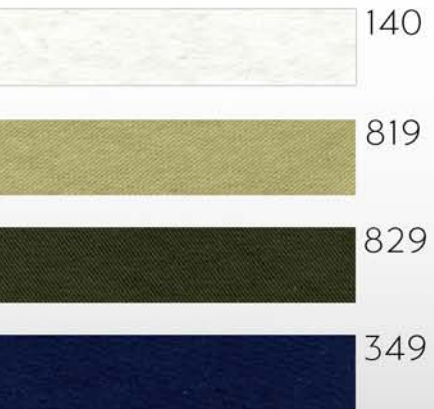

Mixed mediums of fabrications combined with various proportions such as a slim fitting pant with a wide knit jacket or shirt or T-shirt that hits at the hips elongate the legs. The pant is the centre of the look.

Discover your perfect fit.
